Portfolio: <https://iam-uzair.vercel.app>

Full Stack Engineer with hands-on experience in building, optimizing, and maintaining web-based applications in fast-paced software companies, including Triosaf Technologies. Strong focus on JavaScript, TypeScript, ES6+, Flask, frontend/backend frameworks, and API-driven development. Proven ability to deliver clean, scalable code, collaborate with cross-functional teams, and translate business requirements into reliable solutions.

## SKILLS AND TECHNOLOGIES

---

**Languages:** C, C++, Javascript, Typescript, Python

**Frontend Technologies:** HTML, CSS, Bootstrap, Tailwind-CSS, React, Next, Redux-Toolkit

**Backend Technologies:** Node, Express, MongoDB, PostgreSQL, MySQL, Prisma, Next, Redis

**Others:** Git, Github, CI/CD, Docker, AWS, Linux, Vercel, Cursor

## EXPERIENCE

---

### Fullstack Developer Intern

July 2025 – October 2025

*Triosaf Technologies*

- Assisted in building and maintaining JavaScript-based web components for internal and client-facing applications.
- Fixed frontend and backend bugs, improving application stability and user experience.
- Worked with REST APIs to fetch and display dynamic data.
- Collaborated with senior developers using Git for version control and code reviews.

## PROJECTS

---

### YouTube Shorts Converter

- Used OpenAI Whisper large V3 model for video transcription.
- Used Meta Llama-3.1-8b-instant API for best moment suggestion from the video based on the transcription.
- Used ffmpeg for video processing: downloading, audio extraction, audio compression, and vertical scaling to make it suitable for Shorts.
- **Tech Stack:** Next.js | Express.js | Llama-3.1-8b-instant API | OpenAI Whisper API | ffmpeg

### Full Stack Ecommerce Application

- Developed a fullstack Ecommerce Application using React for frontend, Flask for backend, and MySQL for the database.
- Implemented Authentication/Authorization using JWT auth.
- Used SQLAlchemy ORM for efficient database management.
- Developed Flask REST API to handle user requests to buy/update products.
- Features: Real-time Product Management, Category-based Filtering, Order Lifecycle Tracking, Admin Sales Dashboard.
- **Tech Stack:** React.js | Flask | MySQL | SQLAlchemy | JWT Auth

## EDUCATION

---

### University of Engineering & Technology, Mardan

2023 – 2027

*BS Software Engineering*

## ACHIEVEMENTS

---

- Contributed to performance improvements that reduced UI-related bugs at Triosaf.

## SOFT SKILLS

---

Communication | Team Collaboration | Critical Thinking | Time Management | Adaptability
